SKILLS

- **Programming:** Python, C++
- **Frameworks & Libraries:** LangChain, LangGraph, FastAPI, CrewAI, PyTorch, Django, scikit-learn, Pandas, Numpy
- **Tools/Platforms:** LangSmith, Docker, Git, n8n, Streamlit, Jupyter Notebook, VS Code
- **Databases:** MongoDB, MySQL, Vector Databases (FAISS, ChromaDB)
- **AI & Machine Learning:** RAG, AI Agents, Prompt Engineering, LLM Integration, LLM Evaluation, Supervised Learning
- **Backend & APIs:** REST APIs, API Integration, Model Deployment, Authentication & Session Management
- **Cloud Concepts:** AWS (IAM, EC2, S3, Lambda, ECR, ECS, EKS), Kubernetes

EXPERIENCE

SaralOne | AI Automation & Chatbot Development Intern — May 2026 - Present

- Architected and deployed an **AI-powered Whatsapp Lead Qualification Platform** using **LangGraph**, **FastAPI**, **Node.js**, **MongoDB** and **OpenAI**
- Developed lead qualification, FAQ support, automated follow-ups and meeting booking workflows.
- Integrated **Google Calendar** and **RAG-based knowledge retrieval** for intelligent customer interactions.
- Deployed the production application on **AWS** and managed backend APIs and infrastructure.

Metry AI Inc. | AI Intern — Dec 2025 - Mar 2026

- Developed **AI-powered appointment booking chatbot** for salon and beauty SMBs using **LangGraph** and **FastAPI**.
- Integrated the chatbot with **Instagram DMs** enabling automated bookings, cancellations, rescheduling, FAQs and customer support.
- Integrated LLM-powered backend APIs with secure **session management** to deliver reliable conversational experiences.

RELEVANT PROJECTS

SynthraAI – Multi-agent Research System | Github

- Built a **multi-agent AI system** using **LangGraph** with Planner, Search, Critic, Refiner and Writer agents.
- Implemented **human-in-the-loop** and iterative refinement for improved research quality.
- Added secure session memory using MongoDB with encrypted multi-session conversation storage to ensure data privacy compliance
- Integrated **LangSmith tracing** and **monitoring** to debug multi-agent workflows and analyze execution timelines.
- Developed an interactive Streamlit UI with real-time streaming output over HTTPS, implementing secure communication and user authentication controls

FindMyGadget – AI-Powered Smart Gadget Recommendation Assistant | findmygadget.shop

- Built an AI agent using LangGraph, LangChain and Gemini LLM to recommend gadgets from natural queries.
- Implemented budget and category extraction, securely managed Amazon API credentials, and handled product retrieval with encrypted API key storage.
- Designed **JWT-based** authentication and session management in **FastAPI**, enforcing role-based access controls and data privacy policies.

EDUCATION

UIETH Panjab University | Bachelor's of Engineering, Computer Science & Engineering (CGPA: 8.02) | 2024 - Present
